This creature is more than an ordinary decoration - it is an amazing optical illusion!

When you move your body it seems like the creature follows your movement and turns its head, looking at you.

It is also really easy to build! Print it on regular paper with your printer, cut it out, fold and stick. That is all!

To make the illusion work:
Close one eye, look from a short distance (about ½ m) into the eyes of the creature and rock back and forth. It might take a minute or so before you see the effect.

Original creation by Jerry Andrus.

The Chinese zodiac calendar is divided into twelve cycles. Every cycle is a year and every year is represented by a different animal.

2012 is represented by the water dragon. The dragon is wise, gregarious, and open minded. If we let it, it has the power to change our perspective.

Assembly Instructions: for video instructions and to see the optical illusion in action, go to axis41.com/dragon.

K·9

DESIGN PAR : CUBERTOY

http://justlikethat.free.fr/cubertoy

K9 est la propriété de la BBC
Brought to You by www.urdjuret.com

PLIER

Mode d'emploi - 1ère partie :

1 - découpe le contour du dessin
2 - plie tous les pontillés selon les indications:
- plier en relief =
  plier comme pour créer une montagne

- plier en creux =
  plier comme pour créer une vallée

* Indice : la plupart des plis sont en relief, mais fais bien attention au pli en creux, sinon ça ne marchera pas...

Plier en relief suivant le pointillé

Languette A

Languette B

Languette C

Coller la languette C au dos du dessin

Plier les languettes en creux

Coller la languette B au dos du dessin

Coller la languette A au dos du dessin

Découper jusqu'au point blanc

Mode d'emploi - 2ème partie

3 - colle les parties indiquées : tu peux utiliser de la colle ou du scotch (plus facile)

Quand tu as fini :
- pose ton collage sur ton bureau ou sur une table
- éloigne-toi de 2 grands pas en arrière
- quand tu regardes ton animal avec tes deux yeux, tu vois que sa tête est en creux
- cache-toi un oeil avec une main et au bout de quelque temps (entre 2 et 30 secondes) tu verras la tête de ton animal apparaître en relief :

c'est le moment de faire quelques petits pas à droite ou à gauche, de te baisser et de remonter: ton animal bougera la tête, tu auras l'impression qu'il te suit du regard !!

Rebord 1

- éloigne-toi de 2 grands pas en arrière
- cache-toi un oeil avec une main
- au bout de quelque temps (entre 2 et 30 secondes) : tu verras la tête de ton animal apparaître en relief :

c'est le moment de faire
quelques petits pas
à droite ou à gauche,
de te baisser et de remonter:
ton animal bougera la tête,
tu auras l'impression
qu'il te suit du regard !!

Découper jusqu'au point blanc en suivant le trait noir

Plier en relief
suivant le pointillé

Plier en relief
suivant le pointillé

Brought to You by
www.urdjuret.com

Insérer le rebord 1
dans l'encoche

Couper le long de la ligne
puis insérer les rebords
1 et 2 dans les encoches

Insérer le rebord 2
dans l'encoche

Mode d'emploi :

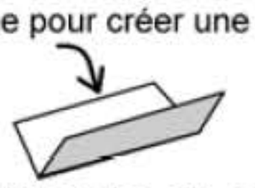

1 - découpe le contour du dessin

2 - plie tous les pontillés selon les indications :

- plier en relief =
  plier comme pour créer une montagne

- plier en creux =
  plier comme pour créer une vallée

* Indice : la plupart des plis sont en relief, mais fais bien attention au pli en creux, sinon ça ne marchera pas...

3 - colle les parties indiquées : tu peux utiliser de la colle ou du scotch (plus facile)

Quand tu as fini :

- pose ton collage sur ton bureau ou sur une table,
- éloigne-toi de 2 grands pas en arrière
- cache-toi un oeil avec une main
- au bout de quelque temps (entre 2 et 30 secondes) : tu verras la tête de ton animal apparaître en relief :

c'est le moment de faire quelques petits pas à droite ou à gauche, de te baisser et de remonter: ton animal bougera la tête, tu auras l'impression qu'il te suit du regard !!

This desktop coati was made following the original dragon by Binary Arts, which in turn was inspired by the work of Jerry Andrus.
To celebrate the Gathering for Gardner 3 in January 16-18 1998 in Atlanta, Georgia, USA.
I hope you'll have as much fun with this coati as I did with the dragon!

Be sure to visit **The Skull Store** at obsessedwithskulls.com/skull-store.htm.

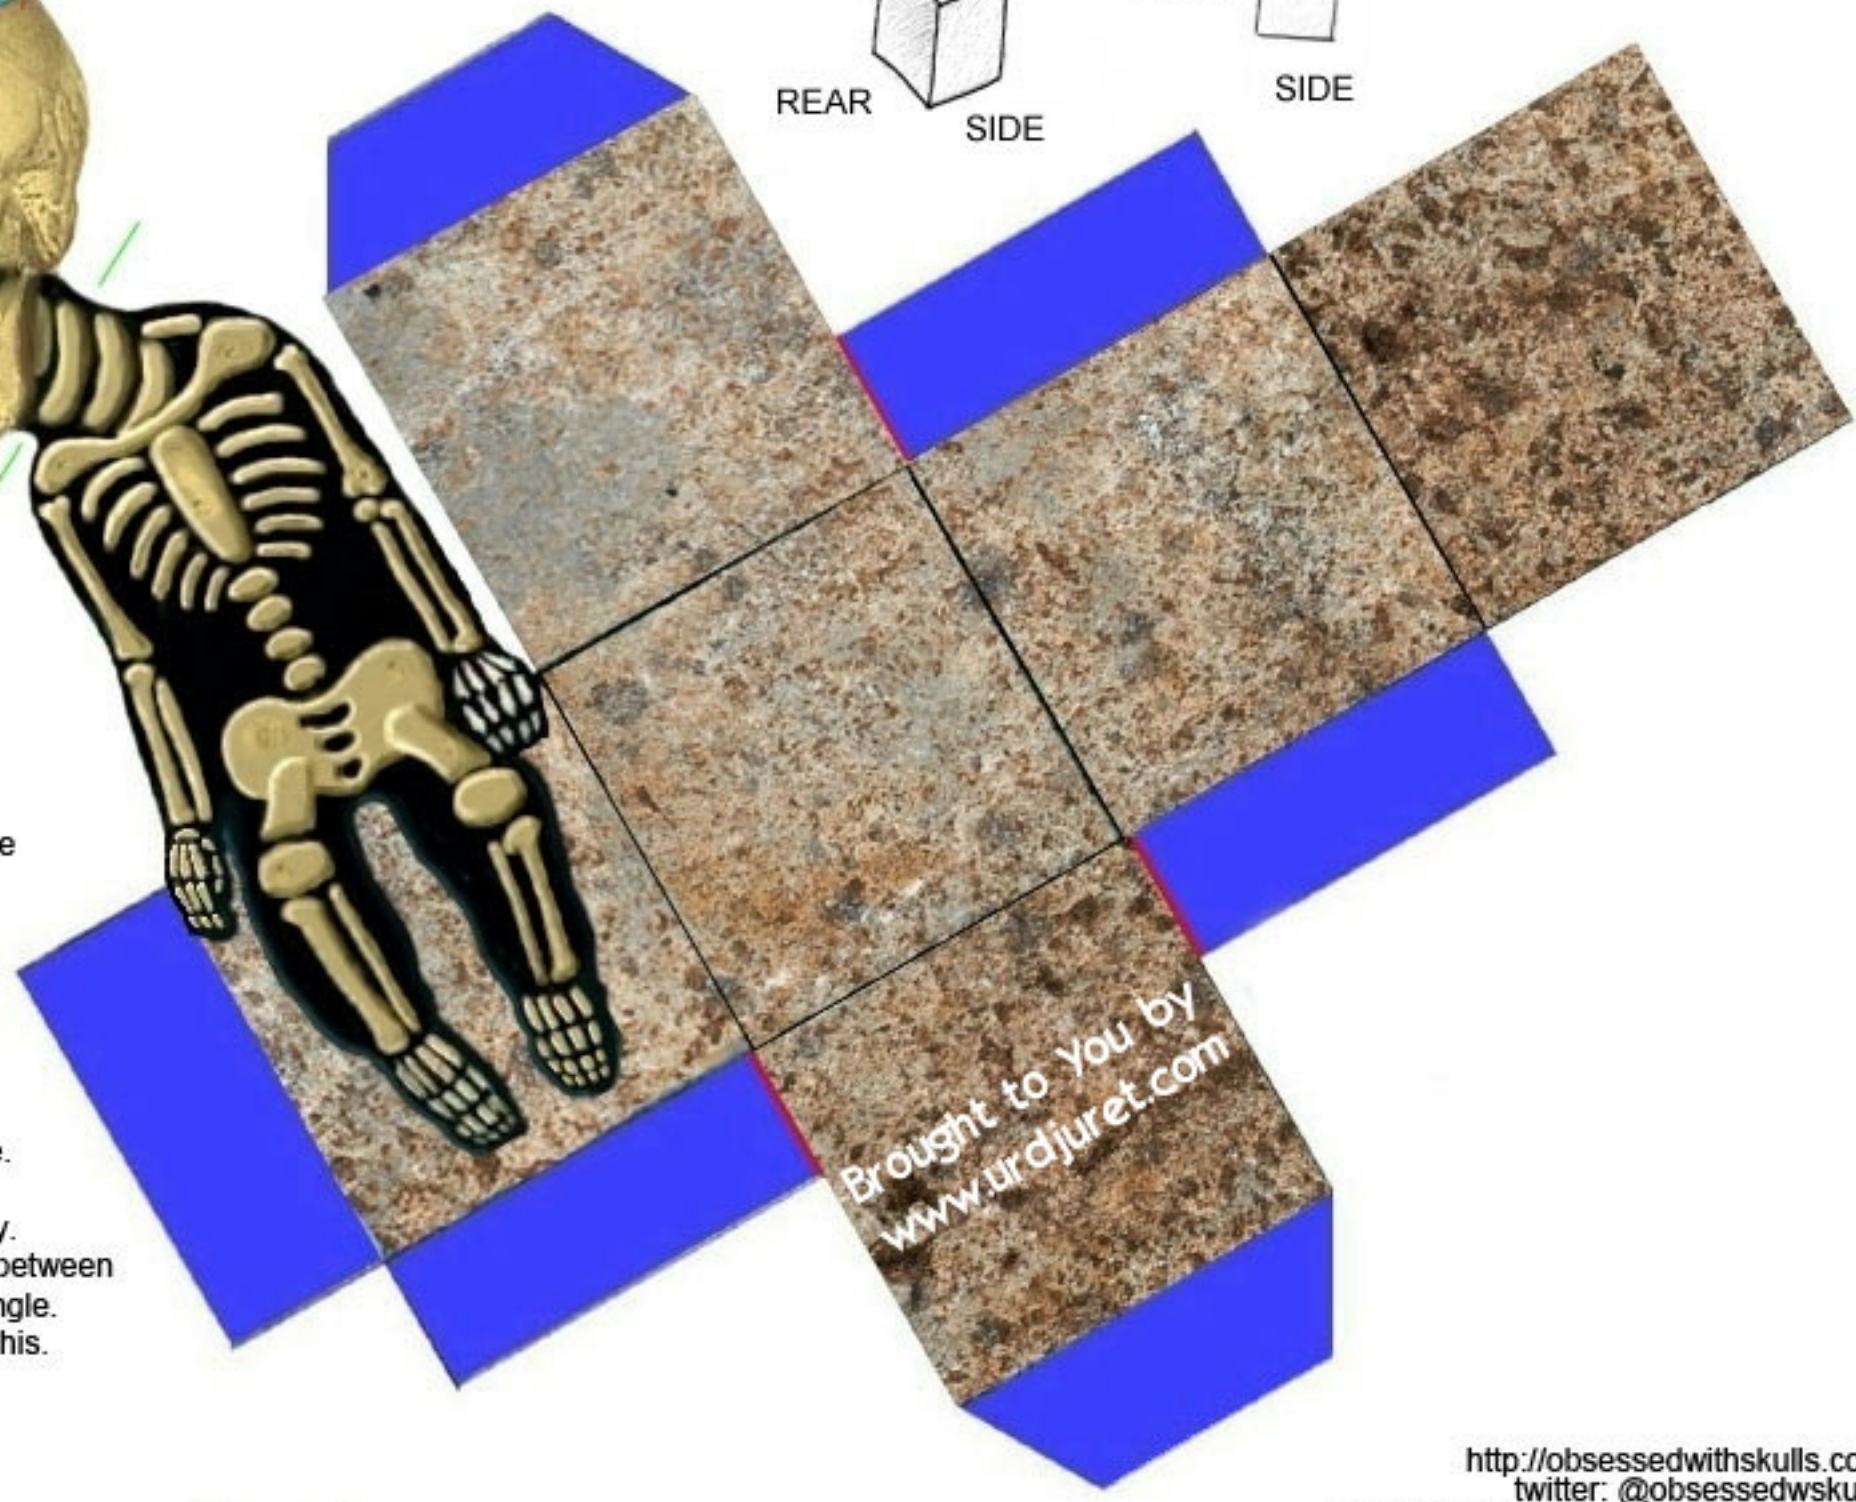

200,000 skull-themed products!

OBSESSED WITH SKULLS

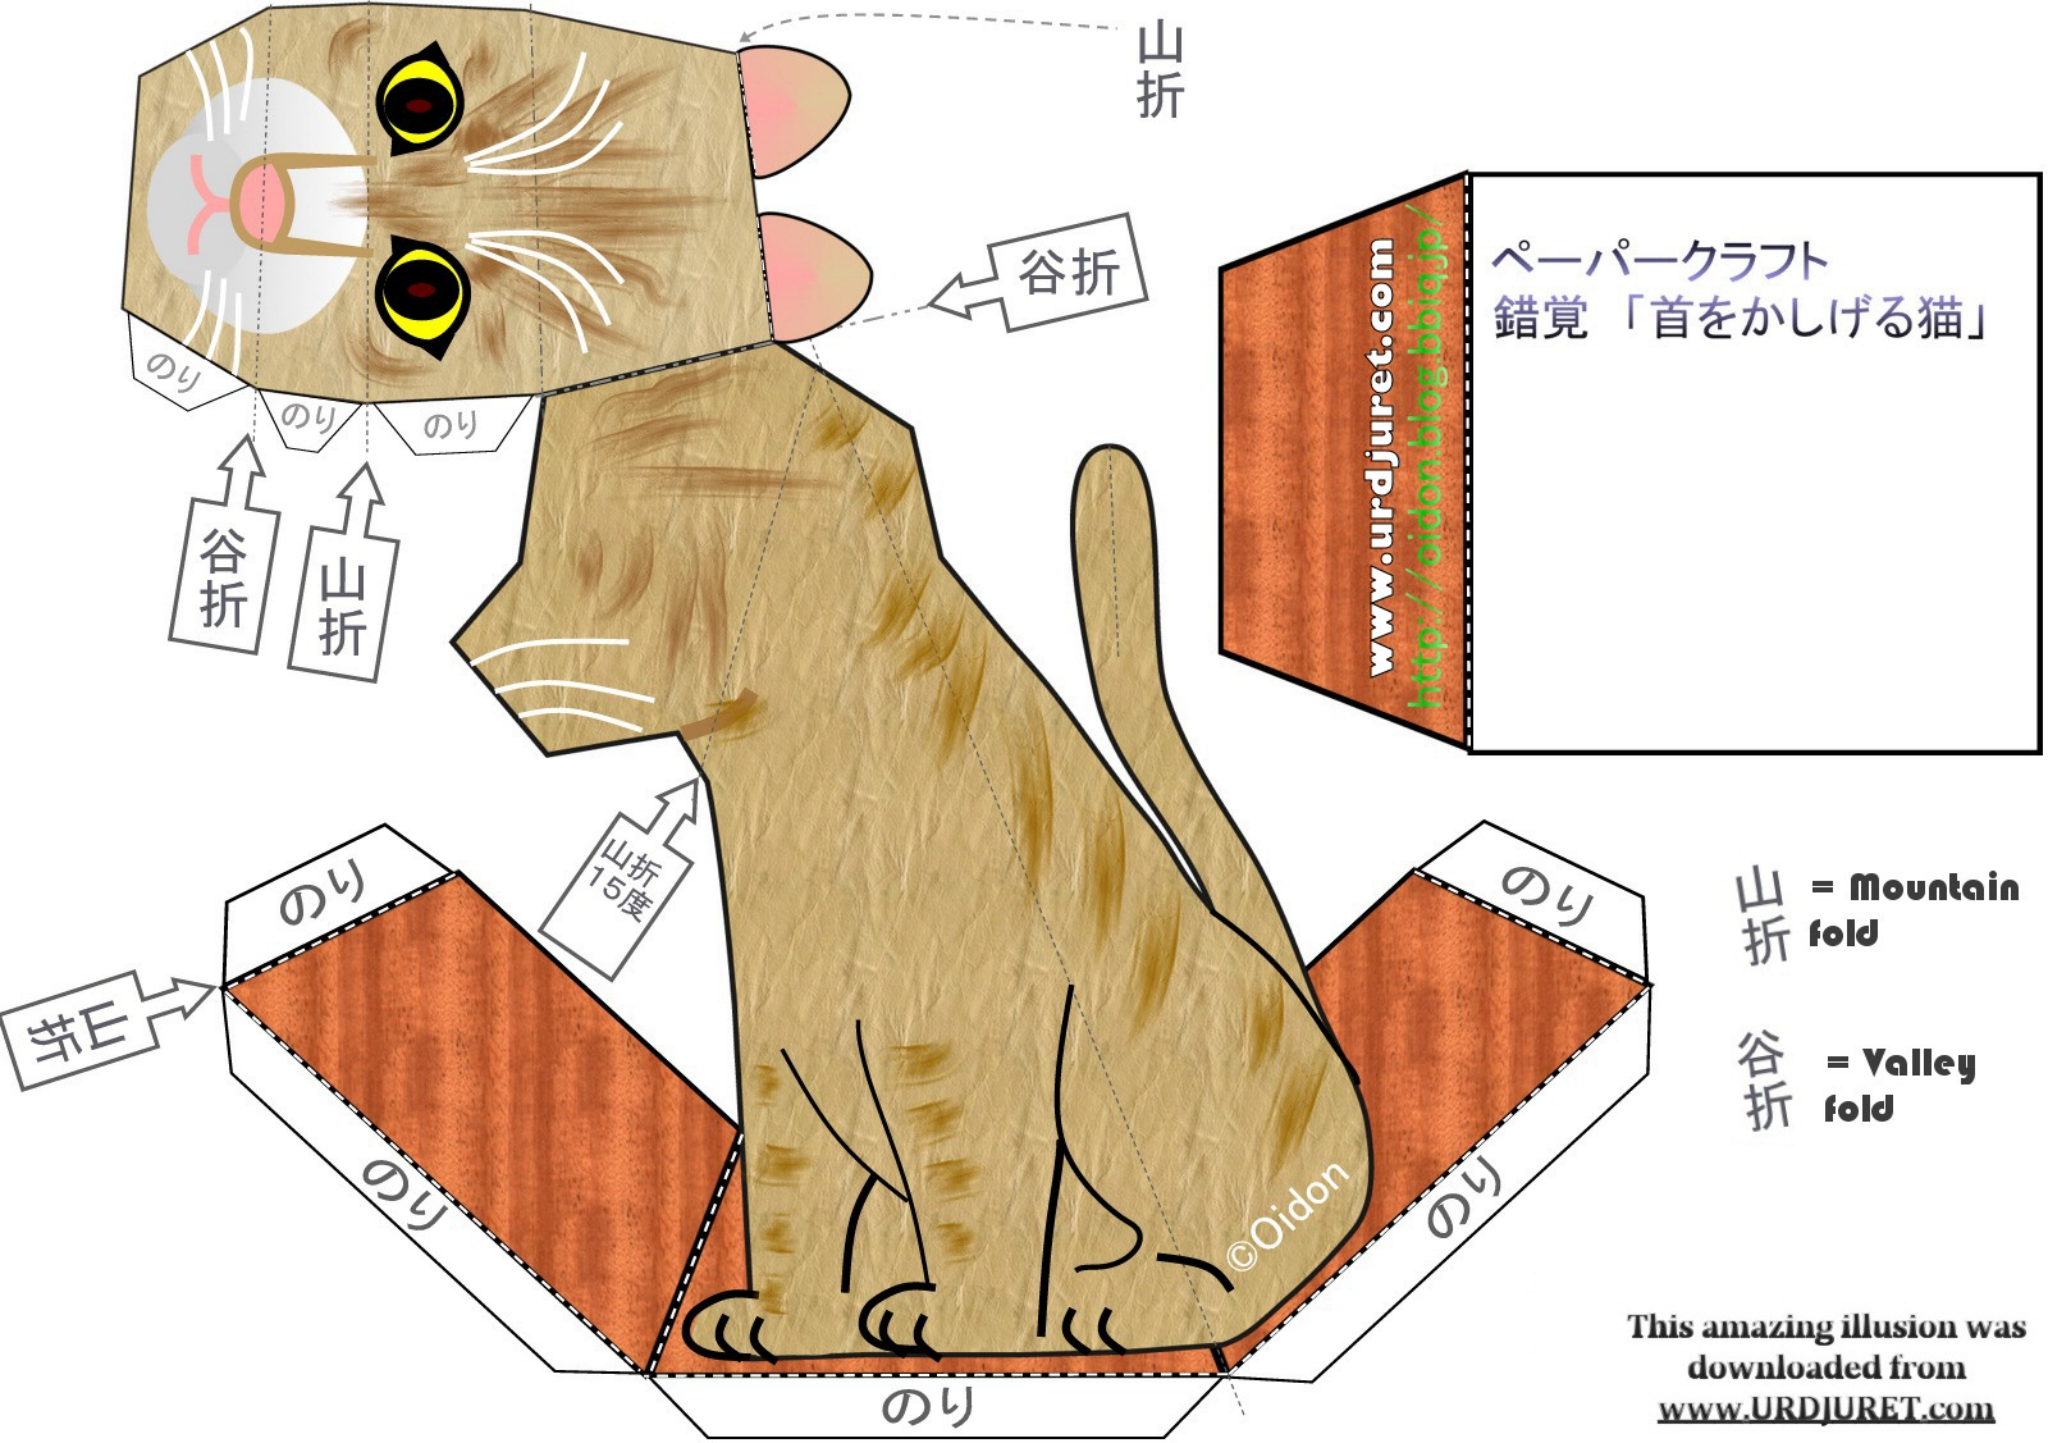

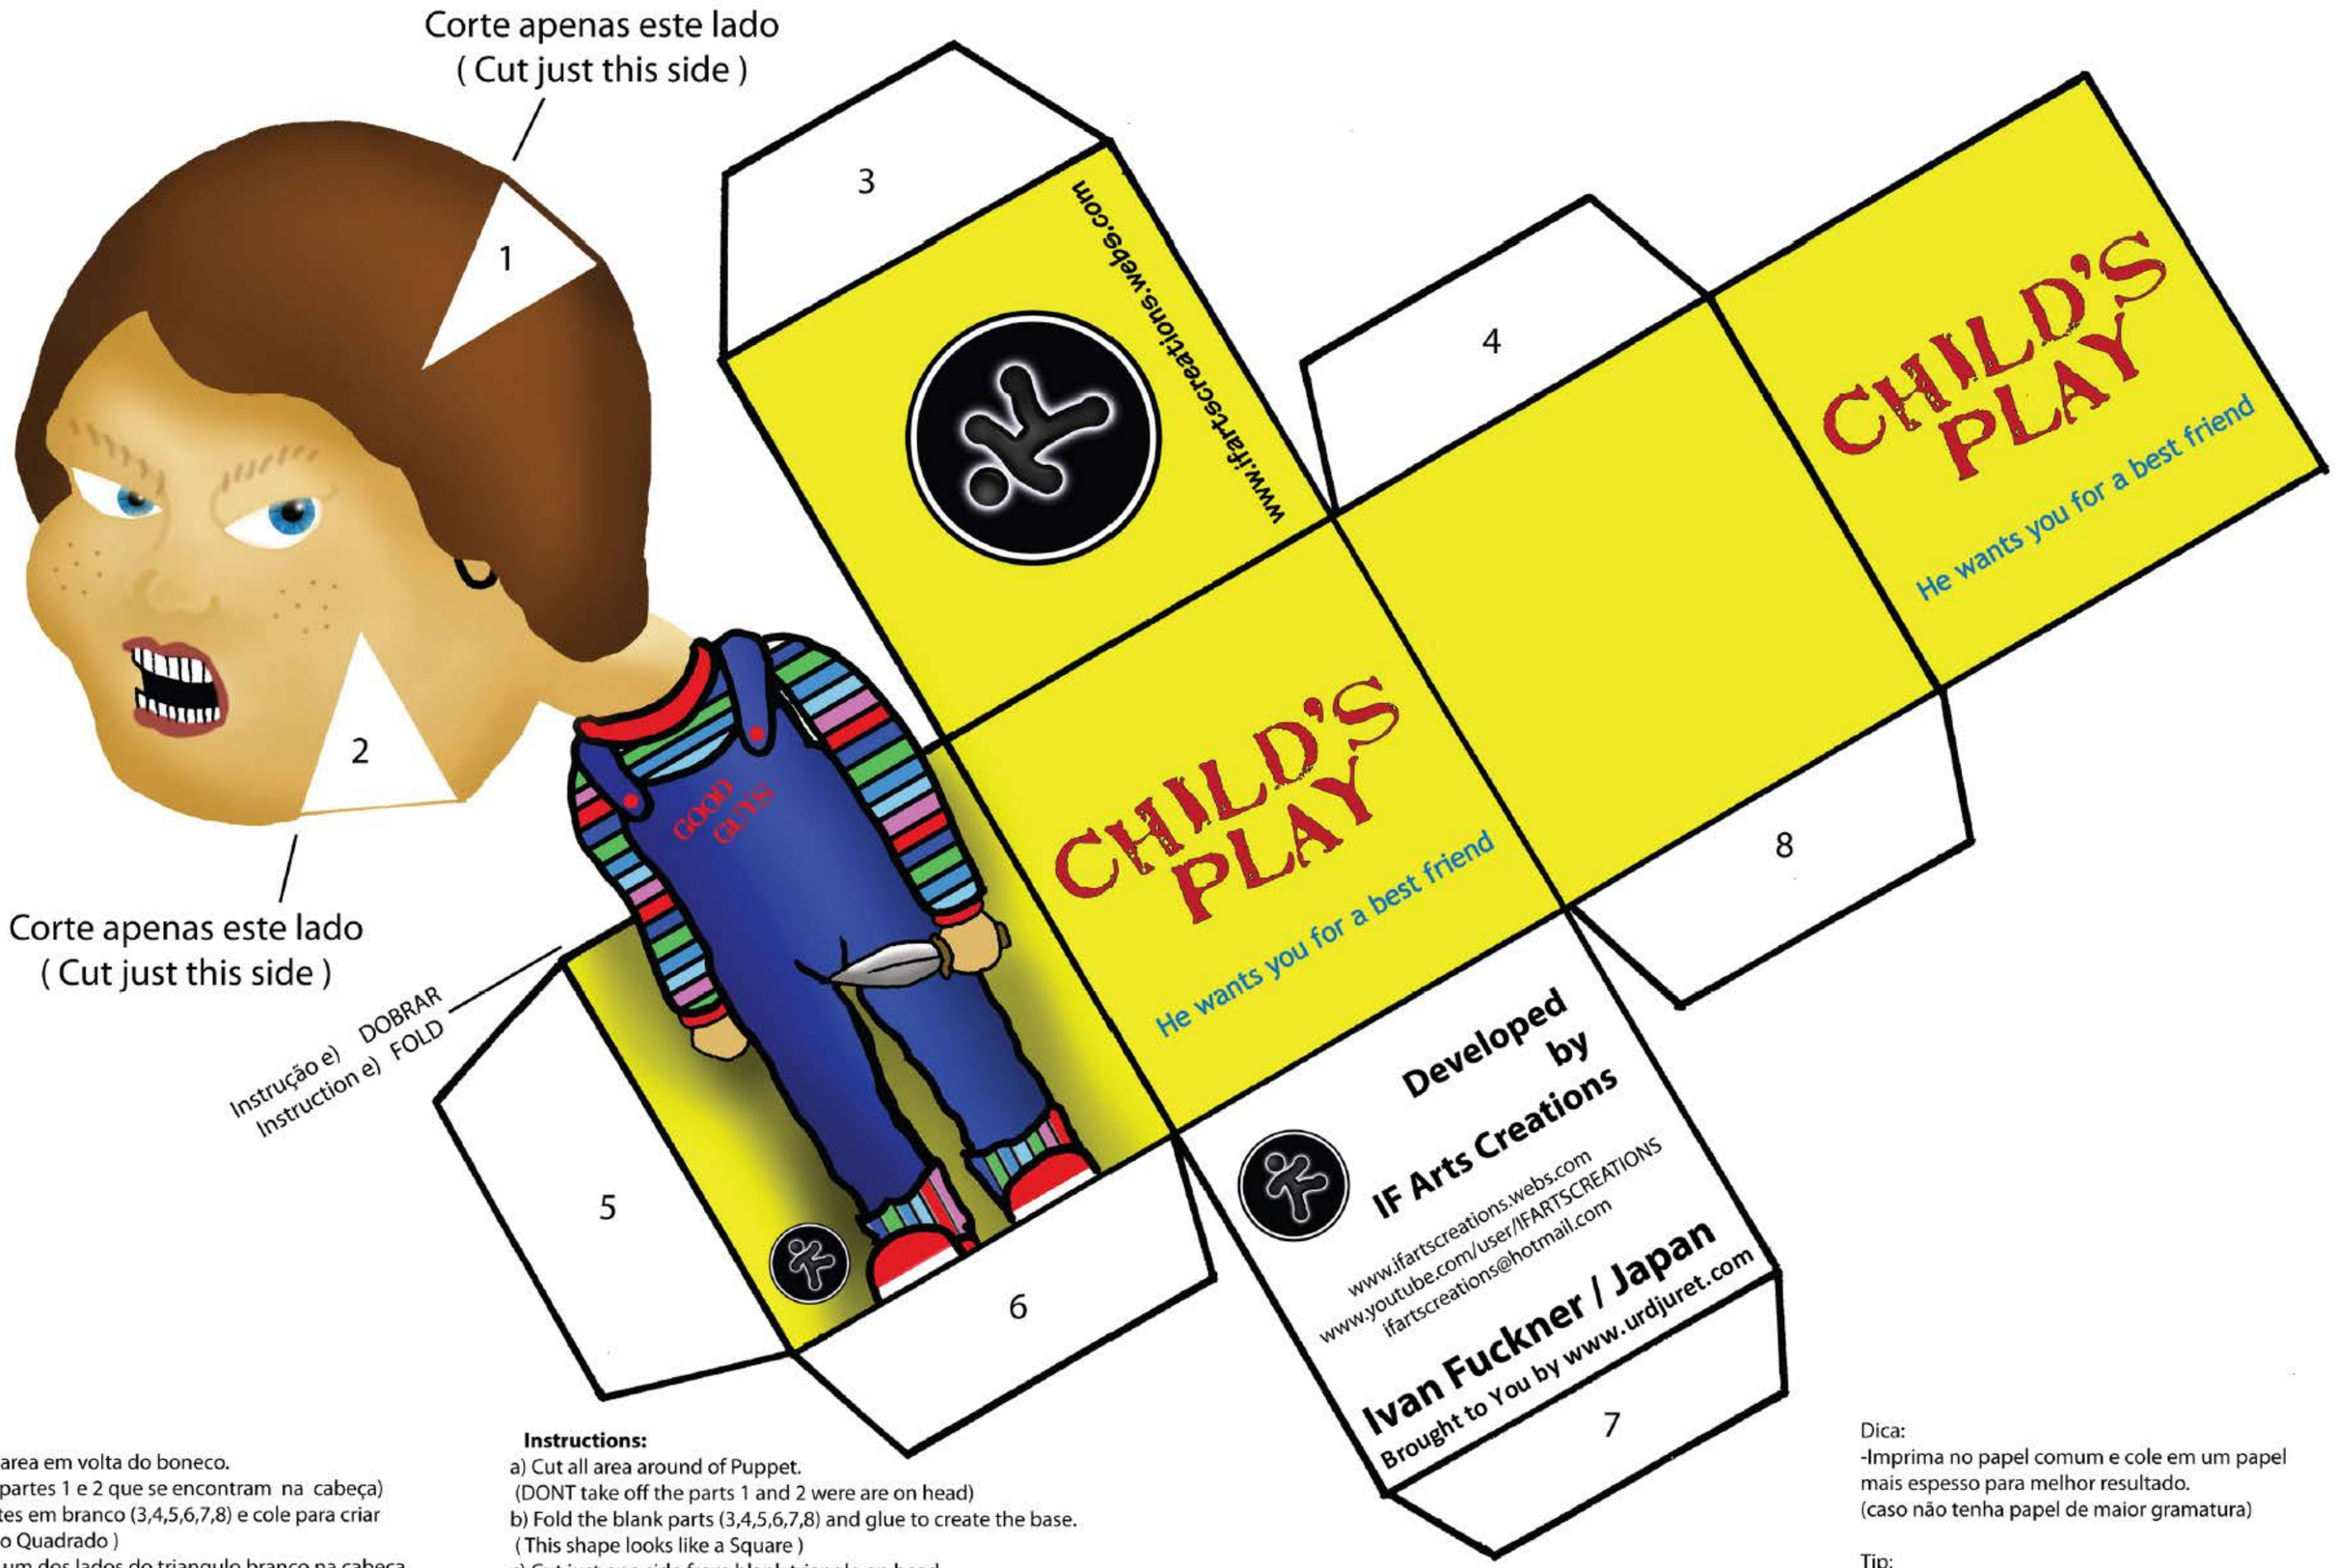

1. Cut out the design.
2. Cut along the red lines.
3. With the cutout laying face down, fold the blue tabs on the cube upward.
4. Fold the cube sides upward and glue the blue tabs to the inside.
5. After cutting the red lines on the skull, move the blue tabs UNDER the skull until the red line meets the green line and glue in place. Try to make sure the red and green are not visible when done.
6. You can fold a line between the two inside points of the triangles if necessary.
7. Fold the head back and away from you between the green lines on the neck at a slight angle.
8. I'd recommend using cardstock to print this.

Instruções:

a) Recorte toda area em volta do boneco.
(NÃO retirar as partes 1 e 2 que se encontram na cabeça)
b) Dobre as partes em branco (3,4,5,6,7,8) e cole para criar a base.(Formato Quadrado)
c) Corte apenas um dos lados do triangulo branco na cabeça.
(Conforme indicado)
d)Cole as duas partes da cabeça (1 e 2) unindo os lados.
(O formato deve lembrar uma colher)
e) Dobre levemente a parte da cintura para tras (15ºgraus aprox.)
f) Olhe fixamente para o olho do boneco e feche um do seus olhos.
Movimente-se e verá o resultado.

Instructions:

a) Cut all area around of Puppet.
(DONT take off the parts 1 and 2 were are on head)
b) Fold the blank parts (3,4,5,6,7,8) and glue to create the base.
(This shape looks like a Square)
c) Cut just one side from blank triangle on head.
(as indicated)
d)Glue the two parts of head (1 e 2) making a link from sides.
(The shape looks like a spoon)
e) Softly folds the part of the waist to backwards (15º aprox.)
f) Look to the puppet eye and close one of your eye.
Move yourself to see the result.

Dica:
-Imprima no papel comum e cole em um papel mais espesso para melhor resultado.
(caso não tenha papel de maior gramatura)

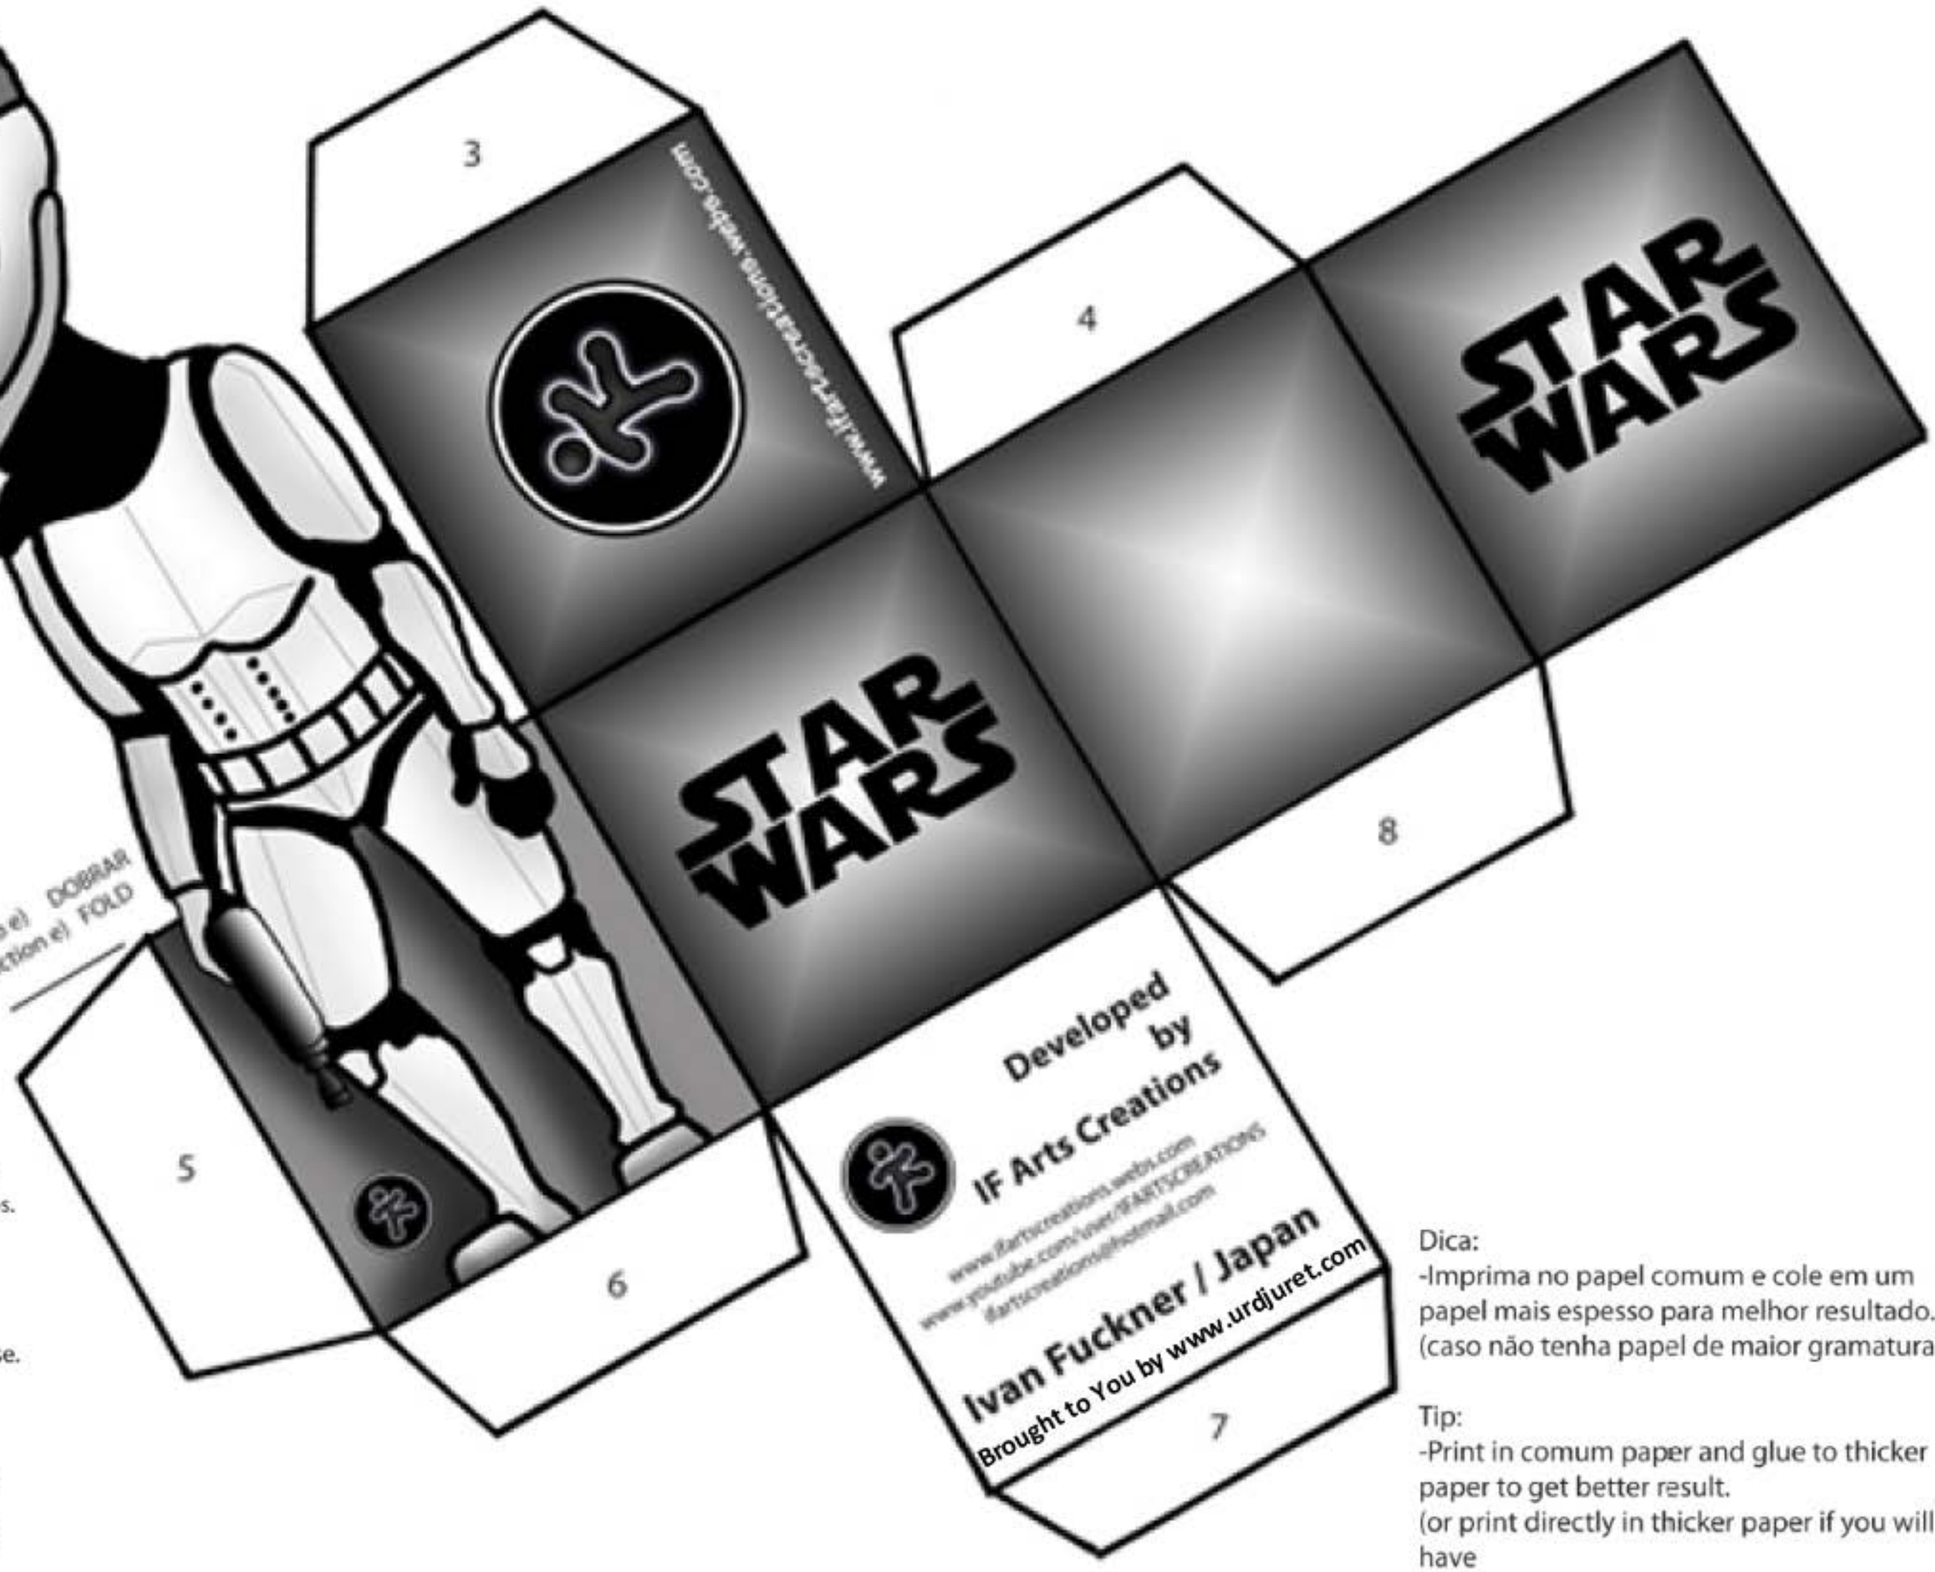

Tip:
-Print in comum paper and glue to thicker paper to get better result.
(or print directly in thicker paper if you will have
